

Please do not let the CBA accomplish their goal of changing the Telephone Privacy law in Indiana. It has been so peaceful since this has taken place. Our family can enjoy a peaceful dinner together without interruptions. We are not disturbed on Saturday morning if we decide to sleep in and Sunday nights we can enjoy quiet prayer time without being interrupted.

It is imperative that the CBA be stopped! We need our privacy in a time when we don't have much opportunity to keep things private.

Thank you.
